

Joint Use Agreement Review Council and Board Update

The Joint Use Agreement Review Team has made progress in re-negotiating the “shared use” part of the agreement, and is currently in the final phase of consultation. The team has initiated discussion on the governance portion and will be developing recommendations to update that section of the agreement.

Conseil scolaire Centre-Nord (the north-central Francophone School District) has contacted the JUA Steering Committee expressing interest in being part of the current three-party agreement. Conseil scolaire Centre-Nord, which operates five schools in Edmonton, currently has a separate Joint Use Agreement with the City.

The JUA Review Team intends to extend an invitation to Conseil scolaire Centre-Nord to join in the review discussions to explore how the current agreements align and evaluate the potential for a future four-party agreement. The objective would be to decide on the potential benefits to the partners and to the citizens of Edmonton of a four party agreement.
