

Cold Weather Advisory for Parents

Edmonton Catholic Schools is extremely concerned about students during the harsh winter weather we are experiencing in Edmonton, and would like to advise parents that Yellow School Buses will continue to operate. Our District Transportation policy also ensures that schools will not close even during very cold weather.

Due to the weather, 29 yellow school bus routes in the District were cancelled this morning, (out of approximately 176 routes), and all routes were experiencing some delays. We remind parents and guardians that children must be dressed for this cold weather by wearing warm hats, gloves and boots in case they need to wait longer for their bus. It's important that a child knows to return home or to a pre-selected location if the bus does not arrive within 20 minutes of its scheduled time.

School bus delays and cancellations (as they are reported) are also available to parents by logging onto www.schoolbusmonitor.com. In addition, parents can contact their child's school or the District's Transportation Services Department which will open at 7 a.m. tomorrow morning.
