

Weather Advisory for Parents

Edmonton Catholic Schools is extremely concerned about students during the blustery winter storm we are experiencing with blowing snow and almost whiteout conditions. We would like to advise parents that Yellow School Buses will continue to operate on Monday. Our District Transportation policy also ensures that schools will not close even during very cold or extreme weather.

We remind parents and guardians that children must be dressed for this weather by wearing warm hats, gloves and boots in case they need to wait longer for their bus. The heavy snow may delay buses for one or more of our 176 routes. It is also important that a child knows to return home or to a pre-selected location if the bus does not arrive within 20 minutes of its scheduled time.

School bus delays and cancellations (as they are reported) are also available to parents by logging onto www.schoolbusmonitor.com. In addition, parents can contact their child's school or the District's Transportation Services Department at 441-6078 which will open at 7:15 a.m. Monday morning.
