Community Child Care Centres

St. Dominic's Kidco Community Child Care Centre is excited to announce that we are offering both morning and afternoon care, for ages Kindergarten to grade 5. We also offer a morning and afternoon snack, which includes a wide variety of healthy and delicious choices for children.

Much like the school, our centre embraces the Reggio Emilia approach allowing children to explore their world with a sense of wonder and creativity. We focus on natural settings and find unique ways to explore nature in their everyday world.

Our centre is open during Christmas break, Spring break, summer break and all Professional Development Days (PD Days). Please see our Director Shay, or visit kidcocommunity.com for more information about this great and unique program.
