

# Student Quick Start Guide

## Logging in to Desire2L

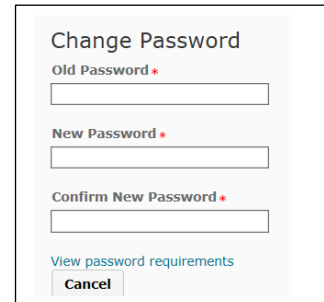

After you have received your initial logon information, go to the Revelation Online site – <http://ecsd.desire2learn.com> and enter your ID and the temporary password. **Username:** 402+Lastname+Firstname (i.e. David Nesbitt would be 402NesbittDavid). **Password:** changeMe (case sensitive)

The login form contains two input fields: 'Username' and 'Password'. Below the fields is a blue 'Log In' button and a link that says 'Forgot your password?'.

Type your username and case-sensitive password in the appropriate fields, and click **Login**.

Once you successfully login, you will be required to change your password to something meaningful to you. Remember that your password is case-sensitive. **You may want to use the same password as you do to login to the computer at school.**

The 'Change Password' form has three input fields: 'Old Password', 'New Password', and 'Confirm New Password'. It also includes a link for 'View password requirements' and a 'Cancel' button.

## Running a system check

The system check at the bottom of the Login window will automatically check that your system configurations (for example, browser version and display settings) are up-to-date.

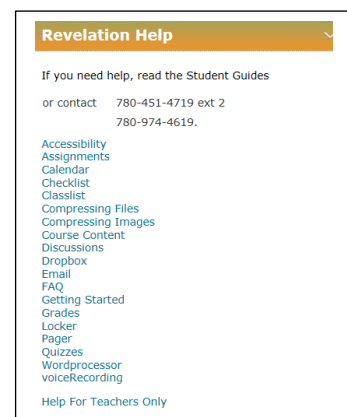

To run a system check on your computer, select the System Check link on the Course Home Login page before logging in.

## Finding your course and Help Guides

To access your course, click on the dropdown menu titled “Select a Course” If there is a start date to your course you may not be able to gain access until that time.

If you are having trouble with any of tools in your course, you have access to help guides that will give you step by step instructions on how to use them.

The 'Revelation Help' dropdown menu lists the following items: Accessibility, Assignments, Calendar, Checklist, Classlist, Compressing Files, Compressing Images, Course Content, Discussions, Dropbox, Email, FAQ, Getting Started, Grades, Locker, Pager, Quizzes, Wordprocessor, voiceRecording, and Help For Teachers Only.
